**Product Bulletin #PB00094**

**Subject: XSMC Shaft Extension Clamp-Style Bracket Retrofit**

Date: October, 2020

URL: [www.munciepower.com](http://www.munciepower.com)

Retrofit kits are now available to convert XSMC shaft extensions with the “J” bracket over to the new clamp style bracket.

For any unit being converted, a kit and a bracket will need to be sent. Please note that the kit does not include the bracket. The table below shows which P/Ns will need to be sent, based on the shaft extension P/N that the customer has.

Shaft Extension P/N	New Bracket P/N	Kit P/N
XSMC-A30XX-X1****	58T65665	MC1EXRBK
XSMC-A30XX-X2****	58T65671	MC1EXRBK
XSMC-A30XX-X3****	58T65604	MC1EXRBK
XSMC-A30XX-X4****	58T65670	MC1EXRBK
XSMC-A40XX-X3****	58T65676	MC1EXRBK
XSMC-A40XX-X4****	58T65669	MC1EXRBK
XSMC-A40XX-X5****	58T65672	MC1EXRBK

The instruction for installation of the new bracket is IN20-12.

The service parts list for the new clamp style brackets is SP20-03.
