

MUNCIE POWER PRODUCTS

Product Bulletin #00130

Subject: RL Series Obsolescence

Date: September 26, 2024

URL: www.munciepower.com

The RL Series of power take-off has been obsoleted, and will be available until January 3, 2025, or until inventory is depleted.

Most applications currently utilizing the RL Series can still be serviced via another PTO series, but the driven equipment will need to be converted to run hydraulically.

Service parts will be available until stock is depleted.

Product literature will be updated to reflect these changes.

For more information, please contact Muncie Power Products customer service.

PTO assemblies: Muncie Power Products will NOT consider parts or units returnable without prior review and authorization.
